DRUG TESTING (complete if applicable)

<input type="checkbox"/> Amphetamines*	<input type="checkbox"/> Cannabis	<input type="checkbox"/> Oxycodone	Other:
<input type="checkbox"/> Methamphetamines*	<input type="checkbox"/> Opiates	<input type="checkbox"/> Hydrocodone	
<input type="checkbox"/> Cocaine	<input type="checkbox"/> Phencyclidine	<input type="checkbox"/> Hydromorphone	

*For Amphetamines and Methamphetamines, if one is requested, we will test and invoice for both tests.
If you have selected Amphetamines and Methamphetamines, please confirm whether your client is taking any prescribed Amphetamine. Our screening stage does not target prescribed drugs, only the specific metabolites of illicit drugs (Ecstasy, Speed and Eve). If you wish for any prescribed Amphetamine drugs to be checked, please confirm the name of the Amphetamine below

Studies have shown that head hair grows approximately 1cm per month. This growth rate varies slightly (estimated at +/- 0.2cm per month). Standard screening tests cover approximately 90-day periods (3cm); however a more detailed month-by-month analysis can be performed by testing individual 1cm sections enabling a historic record to be established as far back as the hair sample will allow. Please note that body hair samples cannot be segmented.

REQUIRED DURATION OF DRUG TESTING (tick as appropriate)

<input type="checkbox"/> 1 Month (1cm)	<input type="checkbox"/> 6 Months (6cm)	<input type="checkbox"/> 12 Months (approx. 12cm)	Other:
<input type="checkbox"/> 3 Month (3cm)	<input type="checkbox"/> 9 Months (9cm)	<input type="checkbox"/> 12 Months (body hair)	

TYPE OF TEST REQUIRED (tick as appropriate)

- Standard Test - Average result over approx. 3 month periods (or as far back as the hair allows).
- Segmented Test - Month-by-month analysis, i.e. separate 1cm sections (e.g. 0-30 days, 30-60 days, 60-90 days etc).
- Body Hair Test - Average result covering approx. 12 months (no segmentation).

ALCOHOL ABUSE TESTING (complete if applicable)

It is now possible to assess people who have been drinking heavily or using alcohol regularly (defined as at least 60 grams of alcohol per day) on a routine basis for a minimum of 2-3 weeks (CDT / LFT) and/or as far back as a hair sample will allow (FAEE Test). Trimega Laboratories continues to set the highest standard in Hair Alcohol Testing by the introduction of EtG to its suite of alcohol analysis. To assist in your choice of the most appropriate tests for your case, we have categorised our Hair Alcohol Testing range into three standards (Bronze, Silver & Gold) based on scientific test research.

ALCOHOL QUESTIONS (please complete)

Has donor had history of excessive alcohol consumption? Yes <input type="checkbox"/> No <input type="checkbox"/>	Other Reason:
Abstinent since (Date):	

TEST(S) REQUIRED (tick as appropriate)

Blood Alcohol Tests: <input type="checkbox"/> Carbohydrate Deficient Transferrin (CDT) <input type="checkbox"/> Liver Function Test (LFT)	Hair Alcohol Tests: <input type="checkbox"/> EtG* (Bronze) <input type="checkbox"/> FAEE** (Silver) <input type="checkbox"/> Combined EtG & FAEE (Gold)	Combined Package: <input type="checkbox"/> The Complete Package This package combines FAEE and EtG (hair), CDT and LFT (blood) tests; including expert witness statement and sample collection.
--	---	--

* We strongly recommend that EtG tests are combined with FAEE to increase the accuracy of interpretation. Please note that there is a % of "washout" effect in EtG tests, which could result in a false negative result. This does not apply to FAEE tests.

** Winner of the UK Best Use of Technology Award 2008.

EXPERT WITNESS STATEMENT (tick as appropriate)

Expert Witness Statement - Trimega Laboratories include within the testing charges a Certificate of Analysis and a summary with an extended report. We can provide an Expert Witness Statement for court purposes as and when it is required that includes the clarification of the diagnostic findings. This is charged at an additional cost and is available for both Drug and Alcohol tests.	<input type="checkbox"/> Drug <input type="checkbox"/> Hair Alcohol <input type="checkbox"/> Blood Alcohol <input type="checkbox"/> Hair & Blood Alcohol
--	---

TRIMEGA NURSE SAMPLE COLLECTION (tick as appropriate)

Sample Collection - Trimega Laboratories provide a network of nurses who may attend your office or a secure location to collect the sample. Cost of collection is charged at an extra cost. Please indicate the initial point of contact when arranging the sample collection: <input type="checkbox"/> Solicitor/Social Worker <input type="checkbox"/> Other... Name: _____ Tel: _____ Preferred appointment dates (if any) _____ (please note that any appointment dates indicated above are not guaranteed and are subject to nurse availability)	<p>PLEASE POST OR FAX THIS FORM TO:</p> <p>Trimega Laboratories 15 Old Bailey, London EC4M 7EF Tel: 0845 388 0124 Fax: 0845 280 2475</p> <p>Date: _____</p>
